Europe has long been recognized as the global leader for trendsetting kitchen design and innovative engineering. We are proud to bring you the finest brands Europe has to offer in custom kitchens, furniture, closets and high-end appliances. We invite you to visit any of our 17 showrooms across America.
#1 Luxury German Kitchen Brand

Today, Leicht is the leading German premium kitchen brand in the U.S. This is due to a powerful package which includes the following:

Sticking to the core philosophy - established by the Leicht brothers in 1924 - of delivering high-quality kitchens at reasonable prices, nine separate price groups together with a large variety of accessories, lighting and hardware options all contribute to making Leicht extremely price-flexible.

Concerning innovation and quality, Leicht is a consistent award winner of the iF Product Design Award, most recently for its Xtend + illuminated shelving system. Notable innovations also include the Interior+ System and concrete finish.

Fast production times result from high factory efficiency, which allows for a quick turnaround between orders and delivery. Leicht is a champion of customization and flexibility in its manufacturing process - a hallmark of this German company.

Team7 is the world’s leading solid wood kitchen and furniture manufacturer and is 100% GREEN!

Team7 has engineered a patented system for working with solid wood using all green materials, earning the reputation as the undisputed world leader in solid wood and sustainable non-toxic kitchens and furniture for the entire home. In addition to natural wood and glass kitchens that are considered to be of the finest quality in the world, Team7 also manufactures exceptional furniture for the entire home -- including tables, wardrobes, living room systems and custom furniture. Team7 is completely custom and is the world’s only established brand manufacturing 100% solid wood kitchens and furniture. Team7 owns its own nearby forests, allowing it to replant all trees sourced. In addition, products are manufactured using only environmentally friendly materials with no added formaldehyde.

Stosa has been making kitchens for over 50 years. Today, Stosa is a market-leading brand with an excellent reputation and produces furniture systems not only for kitchens but living zones too. Our strength lies in our passion and determination to make life better for all those who spend part of every day in the home’s most convivial space. Creativity, originality and functionality are the key features of all Stosa kitchens. Distinctive, ergonomic and innovative design finds full expression through top quality materials and unique attention to detail. These fundamental characteristics are complemented by exceptionally flexible design, allowing customers to create their very own kitchen, even combining units from different models. A vast range of colours, materials and finishes permits over 100,000 different combinations, made possible by 1,000 finishes, 500 door colours, 250 worktop colours and finishes, and 5 different opening systems. Rigorously certified and manufactured using environmentally friendly processes and technical partnerships with industry-leading brands, our kitchens are designed and made entirely in Italy and in true Italian style to satisfy the needs of the most demanding and refined customers. Stosa kitchens come in two product lines – classic and modern – to match all lifestyles. Collections are designed using two different systems: the Look System, which characterises most of our best-sellers, and the innovative and modular Evolution System, with deeper base cabinets, tall units and wall units for greater storage capacity, improved ergonomics, and unique style. Stosa Cucine stands out for its ability to offer customers unrivalled freedom to personalise their kitchens in functioning and looks.
Matteo Gennari started his career as a talented chef—when one day, he realized that what he really wanted to do was to create the world’s best kitchens. Many manufacturers make great kitchens, but no one has ever taken it to the quality and craftsmanship level of Matteo Gennari. Matteo created some of the world’s most exquisite kitchens, and his client list (strictly confidential) includes some royal families and many of the world’s wealthiest individuals. Matteo Gennari creates spaces that are completely individual, one of a kind, and with levels of detail that are not found anywhere else.

The following is one thing that makes Matteo Gennari completely different from all the rest: typically, a great designer would design a space; and then, artisans would need to create it. Quite often, this creates the notorious construction battle between design and execution when the contractor says, “That’s a great design. But how can we build it?” Matteo Gennari’s advantage is that he’s not only the designer, but also the manufacturer, fabricator, artisan and installer. This creates a completely superior advantage for anyone who would like to create a one-of-a-kind space by eliminating any potential conflict between design and execution. In recent years, Matteo Gennari has evolved from making kitchens to creating entire spaces. Matteo Gennari and his team of artisans can create an entire space or home from A to Z—including all fabrics, furniture, lighting, flooring, ceiling, paneling, fixtures and all of the details required to complete a one-of-a-kind space.
GKC has partnered with the leading manufacturers in the world in the value premium category to bring the best value possible to the US allowing consumers to purchase the highest quality German products at the most attractive pricing that has ever been available in America.

Pianca offers the best value for money by combining high-level Italian-designed furniture and closets at competitive pricing. Pianca is the only Italian manufacturer holding stock in the U.S., which allows faster delivery times than those of all other European brands. High-quality wardrobes and walk-in closet systems offer comparable styles to other great Italian brand names, such as Dada and Poliform.

The Pianca furniture and closet lines offer an extensive variety, which allows us to furnish entire homes from A to Z, including dining and living rooms, home offices, libraries and upholstered furniture.
