Versailles
DE LUXE
The Versailles de luxe from LEICHT represents interior room design with sophisticated home décor on the highest level. The Palace of Versailles with its harmonious proportions, a masterpiece of French “Classicism”, not only gave its name but stands for a room concept with which you can fulfill your dream of an exceptionally stylish and extremely representative private and personal living ambience at any time.

LEICHT shows its appreciation towards an exclusive customer group that has sophistication and connoisseurship with exclusive quality, workmanship of the highest standard, harmonious forms, prestigious materials, pleasing proportions and details true to style. The expertise of the LEICHT kitchen brand, successful for more than 80 years, is at its peak here.
Dine in style and savour the most beautiful aspects of life with like-minded people – the living room concept Versailles de luxe provides you with a matching luxurious and prestigious surround. Pleasure in everything decorative, pleasure in authentic style elements, pleasure in a perfectly crafted product and naturally, combined with the most modern functionality – that is the new LEICHT kitchen.
Festive light is reflected in silver and crystal, glasses are clinked, music and luxurious flower arrangements – the Versailles de luxe takes you into a world of light, magic and joyous moments. The column architecture with the detailed Corinthian-motif of the capitals brings to life centuries of glamorous history – an ornamentation which had already found its expression in classical Greek art.
It is the love of detail that stamps the special charm of the Versailles de luxe. The rich embellishments and decorative adornments are most carefully crafted by hand by experienced masters, embellished with an antique gold patina and therefore particularly striking.
In these prestigious surroundings you can also celebrate cooking, preparing and serving befittingly. In the centre: a large elaborately designed isle with striking columns to all four corners. This classic style element forms a stable basis and provides, particularly in large open rooms, harmonious room proportions.
Inspiration for a new domestic culture that loves wide and open rooms and abolishes limitations. The Versailles de luxe makes complex interior arrangements possible, thus creating prestigious living areas in which one can also work. Without compromise!
The individuality and exclusivity of the interior reflect the requirements and lifestyle of the owner. The programme Versailles de luxe offers unlimited possibilities. Made-to-measure, correct to the smallest detail and in harmony with the architecture, room concepts can be created that will happen only once in the world like this.
Classically beautiful on the outside, inside furnished with the most modern technology – a premium kitchen such as the Versailles de luxe meets all your expectations, even as far as functionality is concerned. Every day you can enjoy afresh the beautiful and flexible interior fittings, the self-opening, quiet and cushioned closing of drawers and pullouts.
It is a sensually tactile experience to follow the forms and lines of the decors with your fingers, run with your palm across the velvety matt lacquered surface and to feel the solid rounded metal knobs in your hand. Together they contribute to the overall experience of the Versailles de luxe and are, at the same time, an expression of the love and enthusiasm of all those who define this furniture with the work of their hands and who put their unmistakable stamp on them.
Matching the magnificent, expressive form language of the Versailles de luxe with its elaborate and valuable embellishments are the worktops. The carefully applied period profile follows the column form and so emphasises the elegant lines. To choice in solid wood or stone.
